

# Activated Charcoal

READY-TO-USE MULTI-SPECIES FORMULA WITH ELECTROLYTES **GEL**

Contains Activated Bone Charcoal and Attapulgite Clay

Activated Charcoal Gel is a ready-to-use oral gel containing Bone Charcoal, Attapulgite Clay with electrolytes.

## Description:

Activated Charcoal Gel is a ready-to-use, multi-species formula enhanced with electrolytes. It contains Activated Bone Charcoal and Attapulgite Clay and is intended for use as an emergency first aid treatment in cases of accidental poisoning. This may include poisoning from insecticides, herbicides, organic chemicals, intestinal bacterial contaminants, or grain overload. Research has demonstrated that activated charcoal can effectively counteract the effects of certain oral toxins.

## Approved For Use On:

Cattle, Horses, Sheep, Goats, Dogs, and Cats

## Active Ingredients:

Bone Charcoal .... 100 mg/mL  
Attapulgite Clay .... 200 mg/mL

Inactive Ingredients: Water, Sodium chloride (35 mg/mL), Potassium chloride (35 mg/mL), and Polysorbate

## Benefits:

- Multi-species label
- Intended for use as an emergency treatment in case of accidental poisoning
- Convenient tubes ensure proper dosage
- Contains Bone Charcoal and Attapulgite Clay

## Suggested Use:

For use in cattle, horses, calves, foals, sheep, goats, dogs and cats. Select the recommended feeding rate in the tubes and feed the animals orally allowing time to swallow.

**Dogs & Cats:** 1-3 mL per kg (2.2 lb.) body weight.

**Sheep & Goats:** 1-3 mL per kg (2.2 lb.) of body weight.

**Adult Cattle & Horses:** It is recommended to give up to 300 mL.

**Calves & Foals:** It is recommended to give up to 80 mL.

Repeat Activated Charcoal Gel feeding after 1 to 3 hours or as needed.

A stomach tube should be used in animals unable to swallow. If conditions do not improve, consult your veterinarian. Depending on the condition of the animal, supportive therapy such as parental fluids and injectable antidotes should be used along with Activated Charcoal Gel for efficient recovery. May not be very effective in the treatment of heavy metal poisoning like lead, arsenic, mercury, etc.
