CERTILLUS™ Manure Treatment

CERTILLUS™ Manure Treatment consists of scientifically selected strains of *Bacillus subtilis* and *Bacillus licheniformis* and enzymes for the decomposition of stored dairy waste to enhance crust and solids digestion, odor reduction and nitrogen retention. CERTILLUS Manure Treatment contains a source of live naturally occurring microorganisms. *B. subtilis* is generally recognized as safe (GRAS).

Ingredients

Active Bacteria: Dried *B. subtilis* fermentation product and dried *B. licheniformis* fermentation product.

Enzymes: *Aspergillus niger* extract (source of enzyme), *Trichoderma reesei* extract (source of enzyme), *Bacillus subtilis* extract (source of enzyme), and *Trichoderma longibrachiatum* extract (source of enzyme).

Sucrose, maltodextrin

Guaranteed Analysis

<i>B. subtilis</i> and <i>B. licheniformis</i>	1.8 x 10 ¹⁰ cfu/g
--	------------------------------

Packaging

CERTILLUS Manure Treatment is available in 500 gram bags with 10 bags per box.

Storage

Store product in a cool, dry place.

Shelf Life

Use product within 18 months of manufacturing.

Application Recommendations

Rehydrate the correct amount of CERTILLUS Manure Treatment in warm water prior to application to waste storage facility. Do not pour solution onto dried crust.

- Stored waste: 500 grams per 100,000 gallons
- Monthly dose: 500 grams per 200 head
