HEALMAX®: FAST RESULTS WITHOUT FORMALDEHYDE

HEALMAX® PASTE IS HOOF TRIMMER APPROVED

HEALMAX® Paste is a unique product that only requires a one-time application for results. It allows producers to eliminate the use of formaldehyde on their farms. It is the only product that performs like formaldehyde without the safety concerns to humans and animals. It is the only product that performs like formaldehyde without the safety concerns to humans and animals.

HEALMAX® Paste

HEALMAX® Paste is a unique formulation designed by hoof trimmers for hoof trimmers containing HEALMAX® in a water-proof paste that simplifies handling and ensures contact with the infected area.

- See tremendous results with only a one-time application
- Non-antibiotic product with no issues in withholding of milk
- Not painful like copper and much safer than formaldehyde
- Paste consistency adheres longer to adhesion than a spray product
- Can be used in a wrap or non-wrap

Hoof Trimmer Tested & Approved

In the pictures below, HEALMAX® Paste was applied 1 time. The hoof was placed in a 3 day wrap and the hoof was re-checked 2 weeks later. As you can see, the results for a one-time application are remarkable.
