

RAPID STRIKE™

Rapid Strike is a natural oral drench that reduces pathogen load, enhances gut health and promotes a quick return to normal eating and drinking after digestive stress with scours.

Helps Overcome:

-  Scours
-  Off-feed events
-  Poor appetite
-  Calving and weaning stress

WHAT'S INSIDE:

**PATENTED
MICROFUSED®
ESSENTIAL OILS**

Reduce pathogen load and oxidative stress and promote health of stressed calves while stimulating appetite.

ACTIFIBE® PREBIOTIC

Feed beneficial gut bacteria and promote immune function.

ELECTROLYTES

Rapidly hydrates and restores fluid balance.

Recommended Use:

Administer orally 10 ml (1 pump = 5 ml) per head during times of digestive stress. Repeat after 24 hours as needed.

THE DIFFERENCE

Rapid Strike is powered by **Ralco** technologies that make it the most effective drench during times of stress.

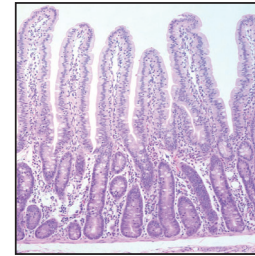

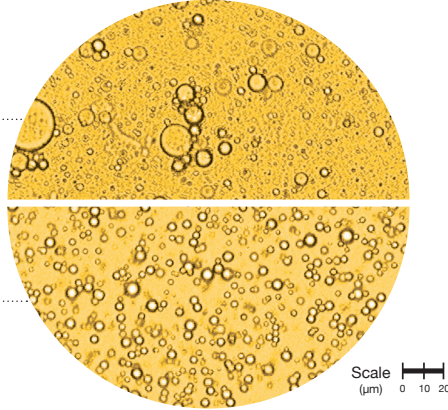

POWERED BY U.S. PATENT NO. 10,512,664

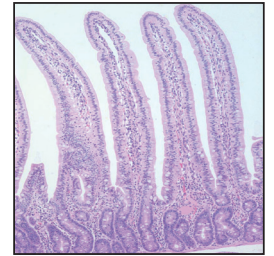

Patented **Microfused Essential Oils** have smaller, more uniform droplets that stay stable over time and temperature. Protected droplets get where they are needed to facilitate and maintain intimate contact.

Competitor Oil:
Larger oil droplets in competitive oil products coalesce and become unstable

Microfused Essential Oils:
20 times greater surface area; 100 drops per 1 drop of competitor

Control

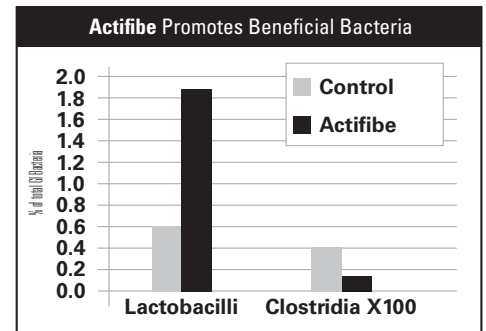

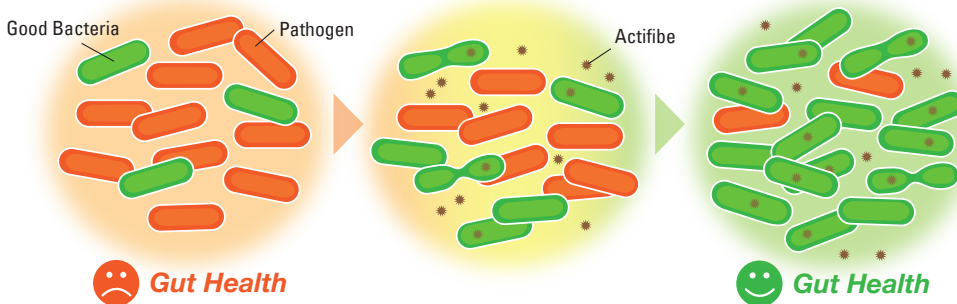

Microfused Essential Oils

These micrographs demonstrate the increased strength of the villi, which directly contributes to holding pathogens at bay.

POWERED BY

Beneficial bacteria multiply when they feed on **Actifibe** crowding out pathogens for improved health and performance.

Research conducted by Purdue University
